REFRIGERATED
slave
MODULES

UNIKA
AUTOMATIC
CHECKOUT

Harvin completes its range by offering a series of **3 REFRIGERATED SLAVE MODULES** for the sale of products with different packaging. In fact, it is possible to dispense snacks, drinks, small bags, cans, gift packs, **hemp products** and electronic cigarettes.

Innovations don't end there: the Slave Modules can be controlled not only by vending machines, but also by **UNIKA**, an automatic checkout with a touch monitor that manages the sale of the associated Slave Modules.

ARE YOU EXCLUSIVELY INTERESTED IN REFRIGERATED SLAVE MODULES BUT DON'T KNOW HOW TO INSTALL THEM? UNIKA IS THE SOLUTION.

REFRIGERATED SLAVE-MODULES + UNIKA AUTOMATIC CHECKOUT = **SELF 24 AREA UP TO 300 PRODUCTS**

SHOWCASE

A large, well-lit showcase improves product visibility and generates extraordinary impulse purchases.

SAFE AND ARMoured

All modules have:

- + an anti-vandalism system that can be applied to the lock
- + a glass protected by a break-resistant polycarbonate
- + an armoured product withdrawal opening

Smart Dashboard

YOUR POWERFUL MEANS OF COMMUNICATION AND REMOTE MANAGEMENT

everything under control with statistics

manage discounts and offers

UNIKA

2 VERSIONS

UNIKA Base
21" monitor

UNIKA Top
27" monitor

Patented Block System

Magnetic lock cover. The best for the security of your earnings!

Coin acceptor

It accepts all coin denominations and dispenses change automatically.

Banknote reader

Accepts 5€, 10€, 20€ and 50€

Printer for refund tickets

An indispensable tool, the printer is used for the refund ticket if change is missing. The ticket issued allows the amount to be credited back from the customer.

Credit card reader

The reader accepts credit, prepaid and private cards, reads contactless, chip or magnetic technology. (optional)

QR code scanner and document reader

It reads identity cards from major European countries, preventing minors from purchasing from the vending machine. Allows the scanning of promotional qr-codes tailored for your business.
